

About Me

Passionate

I'm a Full stack Developer located in Jordan, I have a serious passion coding, and creating dynamic user experiences.

Organized

Well-organised person, problem solver, independent employee with high attention to detail.

Pharmacist

I worked in pharmacies for two years and decide to make a career shift because I love converting ideas to code.

My Skills

HTML

HTML is the standard markup language for creating Web pages. HTML describes the structure of a Web page.

CSS

used to style and layout web pages, describes how HTML elements are to be displayed on screen.

Bootstrap

open source front-end development framework for the creation of websites and web apps.

JavaScript

JavaScript is a dynamic computer programming language, it is lightweight, used as a part of web pages.

PHP

Hypertext Preprocessor* PHP is a widely-used, open source scripting language as backend.

Laravel

Laravel is an open-source web MVC system for PHP. Laravel is a robust framework.

React

React framework, is an open-source JavaScript framework and library developed by Facebook.

WordPress

open source publishing software that can be installed locally on a web server and viewed on a proprietary web site.

Mysql

open source relational database management system (RDBMS) based on Structured Query Language (SQL).
